

Downloading Zoom on laptop/computer

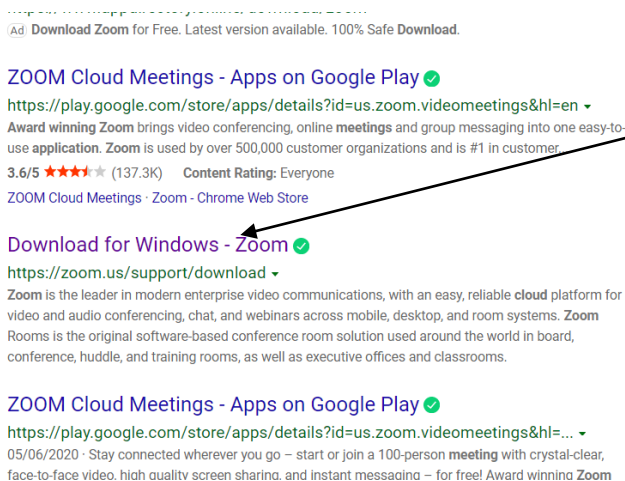

Open your browser.
(Google, Bing, Edge etc).

Type zoom cloud meetings
into search box.

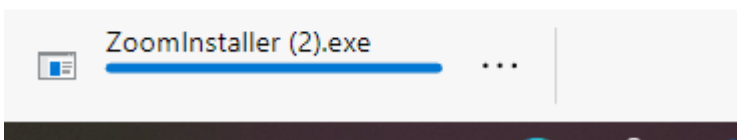

Click on zoom cloud meetings
app download.

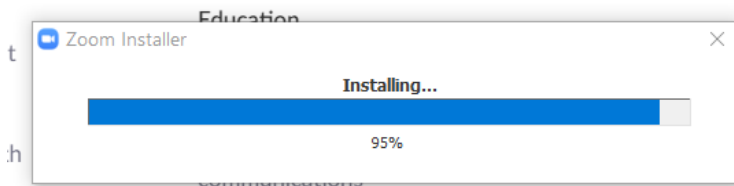

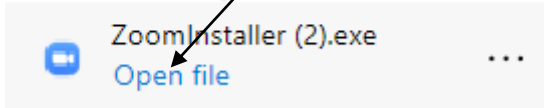

On the list that now appears, scroll
down to Download for
Windows - Zoom

This will appear in the bottom left-
hand corner of the screen. WAIT

When this appears in the bottom left-hand corner, click on Open file.

This will appear in the middle of screen. WAIT.....

We're now downloading Zoom ...

Your download should automatically start within seconds.
If it doesn't, [restart the download](#)

....then you'll get this message.
If the download is successful you will see the blue zoom camera on the bottom task bar of the screen. Click on the camera icon.

Zoom is available on Mobile and Tablet.
